

SIDE JAMB DETAILS

The diagram illustrates the side jamb detail of a window or door. It shows a vertical profile with a total height of 205 units. The top section has a width of 69 units. The bottom section has a width of 20 units. The profile is labeled 'Ali-Jamb' at the top and 'Ali-Jamb Clip' at the bottom. The top section is labeled '10mm Gib Plaster' and the bottom section is labeled 'Brick Veneer Shown, other cladding similar'. The central area is labeled 'Timber Framing' and shows a cross-section of the frame with diagonal bracing. The drawing includes various callouts and dimensions to specify the construction details.
